Continuation of Substance of Interview including description of the general nature of what was discussed: Ex. Eashoo noted that applicant's arguments filed in NOV would be persuasive if the Magnitude of the compression were claimed. claims 1, 14, and 16 recite "predetermined" diameter or thickness which is readable over minor/negligable compression. Mr. Iselin suggested changes to incorporate the degree of compression into claims 1 and 14. Claim 16 would be cancelled since the proposed change would essentially yield claim 21. Other changes for formal matters were discussed. The agreed upon changes would be done by Examiner's amendment. .
